DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group 1, claim(s) 1-26, drawn to a surgical device having a cannula, a trocar carried on the cannula, and fixing means for securing the cannula and a method of using it.

Group 2, claim(s) 27-33, drawn to a surgical device having a cannula, fixing means for securing the cannula, the *fixing means having at least one seal*.

Group 3, claim(s) 34-37, drawn to a surgical device having a cannula, fixing means for securing the cannula provided by an *external and an internal mounting ring one or both being pivotally movable about a longitudinal axis of the cannula*.

The inventions listed as Groups 1, 2, and 3 do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The special technical feature of Group 1 is the combination of a cannula, a trocar carried on the cannula, and a fixing means. The special technical feature of Group 2 is that its fixing means has at least one seal. The special technical feature of Group 3 is that it has an external and an internal ring, pivotally movable about the cannula.

A telephone call was made to Jeffrey L. Costellia on February 9, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 3731

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
